

LR-Newaz Sound Effects Guide

Foley & Audio Feedback Cue Sheet

Subtle Professional Audio Cues

- * Screen Tap: Subtle dry wooden thud (soft tactile feedback, -20 dB).
- * Scan Laser Sweep: Smooth low-pass sci-fi frequency riser sweeping 400Hz to 1200Hz.
- * OCR / HCR Verified: Gentle crystalline chime in C-major (indicating 98%+ confidence).
- * Dag Highlight Snap: Resonant magnetic snap with soft sub-bass punch as Dag 402 turns emerald green.
- * Export Completed: Delicate metallic acoustic harp chord signaling dossier generation.
