

LR-Newaz Version 1.0

Screen Recording Plan & UI Interaction Checklist

Studio Production Recording Checklist

Follow these exact steps during production screen capture to match the master narration:

- * Step 01: Setup & Emulator Specs: Resolution 1080x2400 (or 4K), 60 FPS, Dark/Light theme set to Light Parchment, touch feedback enabled (show taps).
- * Step 02: APK Installation: Capture file download from release directory, Package Installer launch, 'Install' tap, and home screen icon launch.
- * Step 03: Tesseract Language Setup: Tap AppBar 'tesseract_setup_button', show Bengali (ben) & English (eng) pack cards, tap verify status.
- * Step 04: Dashboard Exploration: Scroll through LegalDisclaimerBanner, highlight MetricCard numbers (Total, Verified, Errors), tap Quick CSV bar.
- * Step 05: Bulk SAF Upload: Tap 'fab_saf_folder', select sample deed directory, record animated progress indicators, hash computation, zero-byte skip.
- * Step 06: Document OCR & Binarization: Open DocumentDetailScreen, demonstrate Otsu binarization slider, toggle between Raw Scan and High-Contrast Text.
- * Step 07: Bangla HCR Review: Tap 'btn_open_hcr' banner, open HcrCorrectionScreen, inspect token confidence chips, edit one uncertain token, save.
- * Step 08: Cadastral Map GIS Detection: Load survey sheet, show contour vector polygon extraction, Bengali digit bounding boxes, road and water layers.
- * Step 09: Warishnama Inheritance Matching: Tap 'btn_open_warish_matcher', choose Warish certificate, view heir tree, verify statutory Ana-Ganda-Kranti shares.
- * Step 10: Cadastral Plot Highlighting: Tap on heir share ' ', demonstrate instant emerald green polygon highlight and gold perimeter glow.
- * Step 11: Historical Property Atlas: Tap 'card_atlas_banner', scrub CS -> SA -> RS -> BS timeline, observe Dag 402 split into 402/1 and 402/2.
- * Step 12: Offline FTS Search: Type ' ' into 'search_input', demonstrate 15ms instantaneous query filtering on HomeScreen.
- * Step 13: Report Export Suite: Tap 'export_csv_button', launch ReportExportDialog, generate PDF Dossier, Excel XLSX, and ZIP archive.
- * Step 14: Final Security Summary: Show Settings, zero internet traffic in network profiler, Room database integrity confirmation.
